

"WAKU-WAKU SCHOOL OF ARASHI 2011 — 2018" Project Summary

WAKU-WAKU SCHOOL OF ARASHI was launched after the Great East Japan Earthquake on March 11, 2011, to offer support for reconstruction and recovery efforts. This year marks the eighth year of the project.

Soon after the Great East Japan Earthquake, electricity shortage became a big social issue. As an expression of support for the affected areas, WAKU-WAKU SCHOOL OF ARASHI events do not use electricity.

The school theme was chosen to deliver a message in keeping with the Arashi image, in hopes of bringing a smile to all those who came. The idea is the brainchild of Mr. Kundo Koyama. The members of Arashi become teachers, each in charge of one of 5 classes. (Members who aren't teaching participate in the classes as students.) Content was created around the concept of "awareness", highlighting the fact that small things that are often overlooked can actually be very important.

The main theme of WAKU-WAKU SCHOOL OF ARASHI is "Daily Awareness".

Through WAKU-WAKU SCHOOL OF ARASHI, the members themselves have developed a renewed awareness of things around them, while also being able to show their continued support over the past eight years.

We would like to take this opportunity to once again thank everyone for their support and encouragement. We will continue our efforts to assist in restoration and recovery efforts in the affected areas to the best of our abilities.

Details of our activities through WAKU-WAKU SCHOOL OF ARASHI events are available below.
